FDS-MFA7 MOBILE FOGGING SYSTEM: QUICK & EASY ROOM SURFACE DISINFECTION

Unlike many other disinfecting solutions, the FDS-MFA7 mobile fogging system produces extra fine, uniformly sized drops that completely cover surfaces without wetting. The system requires no compressed air and fogs quickly and effectively. Easy to use timing controls allow workers to set the desired fog time and delay start time before exiting the room. Once fogging is complete, the system is easily moved to the next room.

BENEFITS

- **Simple design:** Featuring a mobile cart design, key system components include an easily refillable 7-gallon (26.5 L) tank, a digital timer control, a 4-nozzle fogging device for 360° coverage and a telescoping pole for fast adjustment of the fogging device height. No compressed air required – the system plugs into any standard 120 V wall outlet
- **User-friendly:** Intuitive timer controls, a low tank level indicator light, automatic alignment of fogging nozzles and other helpful features make system operation easy and efficient for workers
- **Minimizes disinfection time:** The FDS-MFA7 system has a spray distance of 12.5 ft. (3 m) at 40 psi (2.8 bar) and fogs a 1,400 cubic foot room in approximately four minutes

IDEAL FOR

- Manufacturing work areas
- Break rooms
- Conference/meeting/lobby areas
- Office spaces

FDS-MFA7 MOBILE FOGGING SYSTEM

SPECIFICATIONS

Dimensions: 37" L x 26" W x 76" H (94 cm L x 66 cm W x 193 cm H)
Height with fogging device extended: 120" (304.8 cm)
Weight: 200 lbs. (90.72 kg) full
Tank capacity: 7 gal (26.5 L)
Maximum flow rate: 4.3 gph (17.2 lph)
4-nozzle fogging device: polyurethane body, stainless steel spray nozzles

Follow the instructions on the chemical label for application.

ORDERING INFORMATION

System Capacity Size	NM10	NM25	NM30	NM43
Total Flow Rate gph (lph)	1.06 (4.0)	2.64 (10.0)	3.17 (12.0)	4.5 (17.2)

MORE OPTIONS
